

# Hockey Summary for Week

## "Duke" Keats Suspended By Canadians

Johnny Sheppard Placed in Charge of Team. Executive Refuse to Comment

A sensation was created in local hockey circles early Wednesday morning when it became known that coach "Duke" Keats had been suspended by the executive. A special meeting voted on the suspension Tuesday evening following the team's return from a road trip.

Officials of the team refuse to comment other than to say Johnny Sheppard will be in charge until further notice. Sheppard managed the team on Wednesday night against Lethbridge.

## Coleman Juniors Head C. N. P. J. L.

Defeat Michel-Natal 7-1 for the Second Consecutive Win

Coleman Juniors, holders of the Alberta "B" junior championship, won their second game in as many starts in the C.N.P. junior league when they trounced Michel-Natal 7-1 here on Friday night. In this, their first home game, the locals displayed plenty of power on attack and on defence, and succeeded in scoring an easy victory. Play was fast and rugged but individual rushes by players on both teams made combination attacks difficult.

One of the game's highlights was when Roy McLeod saved "both" penalty shots awarded to Michel-Natal. Penalties proved disastrous to Michael as Coleman scored three goals on power plays. Coleman—McLeod; Harry, Garrett; Kovac; Raymond, Godfrey; Subs: Fontana, Salvador, Beddington, Goldring, Houghton, Evans. Michel-Natal: Mylen; J. Weaver, Cimoline; Bernardo, Galla, Young, Fowler; Subs: Taylor, Gergel, B. Weaver, Travis.

### Summary

First Period—1, Godfrey (Raymond), 2, Raymond (Kovac); 3, Fontana (Beddington); 4, Beddington (Kovac). Penalties: Godfrey, Garrett.

Second Period—No score. Penalties: Garrett.

Third Period—5, Fontana (Harry-Beddington); 6, Michel, B. Weaver; 7, Garrett; 8, Kovac.

Referees: Higgs and Thompson.

## D'Appolonia Rink Won Two Prizes

Fourth Prizes in Both Lethbridge Brewery and Trites-Wood At Fernie Bospital

John D'Appolonia and his band of merry men, while failing to bring home the bacon at the Crows Nest Pass bospital last week, were successful in winning two fourth prizes, in the Trites-Wood and Lethbridge Brewery competitions. The other rink, skipped by Jim Kerr, was not so fortunate and came home on Thursday empty-handed. All reported a really enjoyable time.

Blairmore's invitation to hold next year's bospital there was accepted and it is expected a large entry will be forthcoming from the Pass clubs.

Andrew Dow, president of Coleman club, was appointed to the executive of the Crows Nest Pass Curling Association. He and John D'Appolonia were speakers at the banquet held at Fernie last Wednesday evening.

## SERVED 14 YEARS, COUNCIL- LOR AND MAYOR

At present at Victoria, Mr. Patton was tendered a vote of appreciation by ratepayers and council at annual meeting.

## Council Asked To Take Action--Houses Sinking in West Coleman

To Send Mayor Pattinson a Letter of Thanks for Services to Town.

A petition signed by 57 residents of West Coleman was before the council on Tuesday evening, stating that the ground supporting their homes and other property was sinking. Tremors and rumblings could be heard and several crevices had opened up recently.

The area causing the greatest fear to residents is that bordered on the east by the road passing alongside Edger Thomas' residence to Joe Panek's, and on the west by part of the main highway running past J. Shields' service station and continuing to the back row of houses. Due to the movement of earth, both water mains and water pipes inside the lot of the water consumer had broken. Chimneys were in danger of breaking, resulting in a fire hazard. The council will first write the Department of Mines to secure certain information, and will take further steps upon receipt of this information.

A letter from the provincial government stated that the equalized assessment of the town had been raised from \$250,000 to \$270,000. This means an added expense to the town of \$60. The town at present paying \$750, which will be raised to \$810. This money is raised by the social service tax. The council will protest such a heavy increase.

A relief application from Mrs. J. Lochrie was filed.

A letter was received from Coleman Motors, asking to share in town's business re gas, oil, repairs, etc. They will share equally with the other garages.

Constable Antel gave a report on the recent fire alarm at Zak's store. He asked that some smoke masks be purchased, and presented a bill for \$12.50 to be shared amongst five fire-fighters.

At the recent ratepayers' meeting, it was suggested that a letter of thanks be sent Mayor Pattinson, who has retired from office, in appreciation of the splendid work done by him in the interests of the town. A letter will be sent, expressing thanks of the ratepayers and the council.

Accounts passed: Provincial Treasurer \$141.04, J. S. D'Appolonia \$9.50, Coleman Journal \$79.50, Sam Safford \$7.20, C. Makin \$8.00, Booth Memorial Home \$12.00, Motorhome \$8.71, Pattinson's Hardware \$116.70, International Coal & Coke Co. \$18.60 and \$9.30, Coleman Light & Water Co. \$303.85, Sam's Service Station \$2.00, H. C. McBurney \$8.55, Walter Bobbit \$50.40, Holys's Grocery \$38.90, Provincial Treasurer \$35.00, Allan's Cash Grocery \$29.30, Toppiano & De Cecco \$9.70, Henry Zak \$17.20, Coleman Co-operative \$19.20, Alberta Government Telephone \$74.48, Red & White \$15.00.

Mrs. Russell Ferguson left on Friday for Trail, where she will spend a short holiday with relatives.

## THE FRANK SLIDE (Maclean's Magazine)

In the December 1 issue of your magazine, an item regarding the Frank slide has been brought to my attention. Marion Leitch is my sister, and while it is true that she was rescued from the Frank slide, she was one of three sisters saved. All are now living, and married. For years the impression has been given that only one child of the Alex Leitch family survived the Frank slide. My parents and four small brothers lost their lives in the disaster.—N. J. Bryan, Vancouver.

## Council Reviews Year's Work to Ratepayers

Less Than a Dozen Present—Various Matters of Local Importance Brought Before Meeting

The annual meeting of ratepayers of the town on Friday last was attended by less than a dozen. Some came to secure information and to hear the reports of the chairmen of committees for the year; others came to find out what the council intended to do in regard to various matters that directly concerned them. It was a peaceful meeting and closed with a vote of thanks to the council, with a special tribute of appreciation. In his absence, to Mayor Pattinson, at present in Victoria, for his 14 years' service as councillor and mayor.

Deputy Mayor Atrobus presided, and read the financial report for 1939, as certified by E. D. Batrum, public accountant. John Atkinson, chairman of the finance committee, gave a brief report on the work. Other members of the council who gave reports were James Kerr and John Baker. Councillor White was absent, being at work, and Councillor Chapman was unable to attend.

The safety of the water supply was discussed, it being pointed out that with the establishment of a sub-division west of the waterworks intake on the river, there is danger of contamination. Council was recommended to have monthly tests made of the water to safeguard the public health. Adverse comment was heard on the Public Works department of the provincial government giving permission for a sub-division to be established there, particularly as the Department of Health had pointed out the danger it would cause.

John Mikus, of West Coleman, pointed out the danger to houses there from the sinking of ground. Mining operations, he judged, were the cause, and water pipes have been broken and electric cables pulled from houses as a result. The Works and Property committee will investigate. Ratepayers concerned think it constitutes a real danger, particularly when the spring thaw comes.

George Ford suggested that councillors be paid for attendance at meetings, but on discussion the majority were of the opinion that those who offered themselves as candidates did so from a desire to do their share in municipal government. Councillor Atkinson remarked that he didn't think it wise to incur any more expenditure to ratepayers than absolutely necessary.

Sam Safford asked that town work, such as grading, repairs, etc., be awarded by tender, and not given wholly to one person or firm. His suggestion was promised consideration, following election of the new council.

George Ford also asked if the appointment of the medical health officer had been settled. The consensus of opinion was that if an appointment is made, the appointee should furnish written reports to the council monthly, as that would keep council and ratepayers informed.

The annual meeting of ratepayers of the school district will be held on Friday of next week, the postponed date having been occasioned by the chairman and most of the trustees being away last week-end.

## Local Tennis Players Given Provincial Ranking

Balloch Ranked No. 2; Roughhead No. 4 Encouragement to Local Youngsters

Stock in Coleman tennis club jumped several points during the week-end when provincial tennis rankings for 1939 were released.

Bill Balloch, who reached the finals last year in the provincial net championship at Lethbridge, was given second rating behind Dr. Bill Stark, of Calgary. Chick Roughhead broke into the ranking with a vengeance when he was

given fourth place, Stark, Balloch and Ernie Anderson being ranked in front of him. To have two ranking players in the first four in the province is an honor to any club, especially such a small one as Coleman's.

Local youngsters who have been showing more interest in the game each year will be given added incentive to improve their game and level of play by the fact that the provincial tennis for many years to come.

## Canadians Lose Two, Win One on Road Trip Last Week

Lost to Turner Valley and Edmonton—Trim Olds Elks

Playing at Turner Valley and Edmonton on Friday and Saturday last week, Canadians met with disastrous results.

At Turner Valley, Canadians were holding their own, just being down by a 2-1 score and battling desperately around the Oilers' cake. Midway in the third period Oilers took advantage of break-aways and the score mounted to 6-1 at the end of the game.

At Edmonton, the game between the Flyers and Canadians turned into a farce. The score ended 15-1 in favor of the Flyers.

Fights and penalties spoiled the game, and Canadians were smothered under an avalanche of goals; it being the most severe defeat ever inflicted on a Coleman aggregation.

In Monday's game at Olds we fared better. Here Coleman gave Elks a trimming right on their own pond by a 5-1 count. The joke of the whole matter is that Elks had only a few days before trounced Edmonton 12-4, the latter had trimmed Coleman 15-1 and here was Coleman walloping Olds 5-1. It's a crazy league!

At Drumheller on Monday night Miners trounced Lethbridge Maple Leafs 6-1, it being Leafs' second straight defeat.

## Wm. White as Mayorality Candidate

Served Two Years as Councillor; Mayor Pattinson to Retire

William White, in a statement to The Journal, definitely stated he would seek election as Mayor of Coleman at the municipal election on February 11th. The office, which has been capably filled by Mayor Pattinson (at present holidaying at Victoria) for the past eight years, will be left vacant by his retirement.

Mr. White has been a councillor for the past two years, and last year was chairman of the Works and Property Committee. His term as councillor expires this year, as does that of Councillor Chapman.

## Burns Concert Very Successful; Large Attendance

LARGE Attendance From Pass Towns; Good Entertainment Program; Dave Gillespie, Chairman

In common with brother Scots throughout the world, members of Coleman Caledonian Society and their friends throughout the Pass gathered in the I.O.O.F. hall on Friday evening to pay tribute to Scotland's bard, Robbie Burns. So great was the attendance that the hall was taxed to the limit to accommodate them.

President Mrs. John Anderson welcomed the guests and bade them enjoy themselves. She introduced Chairman Dave Gillespie, who took charge of the entertainment program from that on.

In his opening remarks, Chairman Gillespie stated that all were here again to pay tribute to Scotland's immortal bard, Robbie Burns, on this, the 181st anniversary. A few short weeks ago everyone heard the old familiar phrase, "Peace on Earth, Goodwill Towards Men," and in his opinion, Burns, more than any other poet, had done much to foster that feeling, the speaker quoting the fifth verse of Burns' famous poem, "A Man's a Man For a That," to support this statement.

The diners, following the address, sang, "There Was a Lad Was Born in Kyle."

To the skill of the pipes by Pipe Major James Moore, that Scottish delicacy, the haggis, proudly borne aloft by Archie McCulloch, was carried to the head table, where Chairman Gillespie gave the well known "Address to the Haggis."

Mr. Harry Garner gave the toast to "The King," and touched on the Canadian side of His Majesty to Canada last year as well as his radio address while visiting the Canadian soldiers at Aldershot last week. The audience, after his address, sang "God Save the King."

The address to "The Immortal Memory" was given by Dave Young, general manager of Mohawk-Hillcrest Collectors. He stated it was owing to the immortal memory of Burns that Scottish people throughout the world closed their ranks on or about the 25th of January to pay tribute to the famous bard, while across the seven seas comes a fragrant breath of home. "True," said the famous biographer of Burns, had truly said that there were very few voices in this world, but many echoes which Burns had given people. In his verse, freedom of spirit and independence. The cold, grim atmosphere in which Burns had his upbringing is reflected in many of his poems and songs.

The toast to "The Homeland" was given by Rev. A. B. Arrol, of Blairmore. He originally came from Glasgow, later moving to the Scottish Highlands. He touched on many of the country's famous landmarks, and it pained him to know that the enemy in the present conflict were continually trying to destroy our famous landmarks and the Porth and "The Lighthouse" which Burns was still a big factor among the people, and he quoted a classified advertisement which read, "Rooms for rent, good views of air raids, terms moderate."

Rev. J. R. Hauge, in his toast to "The Lassie," remarked that Burns was responsible for two great changes in poetry of that day. First he changed the principle of poetry of that time, and, secondly, he wrote of the simple things of life. He thought "The Cotter's Saturday Night" gave a true picture of the peasant people of that day. Burns had many loves and throughout his works many lassies were mentioned, the tone of the poem depending on what success Burns was meeting with the lassie when he wrote the poem.

Rev. J. T. Dunbar, in his toast to "The Homeland" gave an explanation of why he thought the Dominion government had borrowed.

(Continued on Page Eight)

## SCOTLAND AGAIN!

At the Burns' banquet on Friday night, Rev. J. R. Hauge pulled one on the Scotsman that brought gales of laughter. Here it is: "It seems that when Lindbergh, in his epoch-making flight across the Atlantic, was nearing the British Isles, his engine began to act up. Lindbergh was in a quandary; he wanted to make Paris, but it seemed he would be unable to do so. The engine began to rattle alarmingly when suddenly an idea flashed into his mind. He set his course for Scotland where everything lightened up and so was able to complete his flight to Paris."

## The Inland Seaway Project

The prospect of an agreement being reached in the immediate future between the governments of Canada and the United States for the completion of the St. Lawrence seaway to the head of the Great Lakes has brought this costly project very much into the limelight recently.

For the benefit of those who have not kept well posted on this 40-year-old international scheme it should be recalled that once before the agreement between the two countries was agreed to by the representatives of Canada during negotiations only to have it rejected by the United States Senate.

The unfinished should also be reminded that the cost to Canada of this gigantic undertaking would be approximately \$271,000,000, of which \$132,000,000 has already been expended by the construction of the Welland Canal. The cost to the United States would total \$272,751,000. On its behalf it is urged that the completed project would provide, not only greater transportation facilities but an additional 2,000,000 horse-power development for the benefit of Central Canada.

While very little is being said in the current publicity being given the pending agreement about the benefits which might accrue to Western Canada if the project were completed, one might be tempted to believe that the west would obtain some advantage from this enlarged St. Lawrence waterway, judging from the opposition to it which is developing in the east.

### The Gate Of Montreal

Montreal appears to be headquarters for attacks on the project, the Montreal Star declaring that there is no necessity for the project to develop power as a war measure and the Regina Daily Star commenting upon this attitude says: "Some there will be who will discern more anxiety for the fate of Montreal and the power control centred there, in this protest than any genuine desire to avert a foolish enterprise on the part of Canada. Yet if the maritime interests of Montreal are likely to be adversely affected, or the power resources of Quebec sidetracked by the St. Lawrence scheme the protests from the city and Province demand, and no doubt receive, the fullest consideration."

But opposition to the completion of the project in the east is not confined to the port of Montreal. Doubts are thrown upon its value, at least as a power producer, by Toronto Saturday Night which said in its column "The Front Page" in a recent issue: "Canada has spent a great deal of money, to say nothing of political brain power, on the St. Lawrence Waterway scheme—for which it cannot be said that this country is in a desperate hurry—only to have it all thrown away by a few votes in the American Senate. . . . While the article in Toronto Saturday Night is written as a protest against the United States Senate exercising a right to veto the decisions of the United States negotiators, subsequently while Canadian negotiators are given plenipotentiary powers, the publication's comment about the absence of any desperate hurry for this country looks like flouting the scheme with faint praise."

Unfortunately while a great deal is being said about publicity which is being given the prospects of completion of the project about its value as a power producer, little or no information is given as to what it might mean to the Western farmer, in the way of reduced rates, if any, on incoming commodities. Until more of that kind of information is made available, and its authenticity is guaranteed, the west cannot be expected to work up any great enthusiasm for or against the project.

### Some Benefit It—

On the face of it, of course, such a project should mean considerable benefit to the west in the reduction of transportation costs, provided the west is to be allowed to reap the benefits which might naturally be expected to accrue.

Since the announcement of resumption of negotiations, considerable enthusiasm for the completion of this gigantic international undertaking has developed in the mid-Western States which indicates that the people across the boundary opposite the prairie provinces see prospects of material benefit for them in the project. If it is to be advanced for them, then it is a natural corollary that it would be beneficial to the Canadian prairies, for their geographical locations are very similar.

Unfortunately the average Western Canadian is not as well posted as he might be on the St. Lawrence Seaways project and its potentialities and implications. In view of the size of the project, the large sum of money involved in its construction and its possible benefits, it is worthy of some intensive study, so that, if the time come when Westerners are called upon to express an opinion of its value, they will be able to give an intelligent answer.

The people of the west should be in a position to give some direction to their representatives in Parliament on a scheme of such proportions, for undoubtedly the west will have to pay a share of the cost of the project.

### Bacon Shipments

More Than Fifty Per Cent. Of Canada's Output Sent To Britain  
More than 50 per cent. of Canada's output of bacon has been shipped to Britain since the start of the war. This was revealed in figures released by the bacon board.

In a four months period—bacon moved to the United Kingdom totalled almost 96,000,000 pounds compared with just over 60,000,000 a year ago. This, the board comments, "Clearly reflects the substantial upturn to hog production, and is definite proof of our ability to supply all the bacon Britain may require of us."

### Music Furnished

To raise money for singing lessons, a rickshaw puller in Calcutta, India, now sings as he puns instead of clanging the customary bell on the shafts and charges extra to passengers who enjoy songs with their rides.

### FEMALE PAIN

Women who suffer painful, irregular periods with nervous moodiness due to functional cause, should try Lydia E. Pinkham's Vegetable Compound, made especially to help weak, nervous women during such "trying times." Try it!

### Useful Immigration

Canada Received 5,000 Refugees Between January And August Last Year

Canada admitted 5,000 persons who might be classed as refugees between January and August, 1939, an official of the immigration branch of the mines and resources department said.

"Some of the best and most useful immigration Canada has ever known has been in the past few years," he added.

"The figure of 5,000 is based on the number of persons we know have had trouble in their native land and are seeking new homes. They are not always admitted as refugees. Sometimes a man who has settled in Canada is permitted to bring in his dependents. In other cases they come in as single individuals."

"In the refugee group there are well-to-do people who brought millions of new capital and know-how in establishing new industries in this country. Others are admitted on the ground of special skill required in the establishment of these industries. Quite a number came as farmers, bringing their own capital, are being settled in Saskatchewan and British Columbia on funds supplied from overseas."

### Soldiers' Wives

Very Few Have Gone To British Isles To Join Husbands

It's the same old story for the majority of married soldiers in Canada's overseas division. Apparently the men of the first division think England is a little too close to the war front for their wives, and external affairs department officials said few passport applications have been received from wives seeking to join their soldier-husbands in England.

There are no restrictions preventing wives taking up residence in England during the war but only a handful have gone overseas. It is believed cold weather has discouraged a number making the trip and they will leave Canada in the spring.

National defence department officials do not encourage such movements in wartime, although passport applications are subject to perusal by chiefs of staff before granted.

The officers and men generally have to pay the cost of such ocean passages and it is about 25 per cent. more expensive now than in pre-war time for the equivalent trip.

### Ration Regulations

Canadian Soldiers Will Be Served With Eggs Twice A Week

Canadian soldiers, a segment of the greatest egg eating nation in the world, will get eggs twice a week while training in Canada, under new ration regulations.

Failure to include eggs in the earlier regulations caused a flood of complaints to the agriculture department from egg producers and those connected with the industry on the grounds it reduced the domestic egg market.

The list of rationed used in the British army was the basis on which the Canadian list was started at the beginning of the war. It caused considerable complaint because, since Canadians normally do not follow the same diet as people in the United Kingdom, the sudden change in the diet of thousands of men here upset the processes of domestic marketing.

First complaints came from apple growers. Men who as civilians ate several apples each day, didn't get any in the army, and the growers already worried over the disposal of their apple surplus, vigorously protested.

### Advances In Agriculture

The agriculture of tomorrow will differ from that of to-day as much as ours does from that of 50 years ago. The actual progress will be made through scientific research, made effective by wise policies of production and marketing, and the agricultural countries which reap the greatest benefit will be those that use the only key that can unlock the doors to nature's secrets—Dr. J. M. Swaine, Director, Science Service, Dominion Department of Agriculture.

### Calendar In Braille

A 1940 calendar in Braille, believed to be the first produced in that medium, has been published by the Braille Press of the New York Association for the Blind.

Witnesses in French courts are permitted to tell more than the truth. Even their imaginations may be resorted to in testifying.

### Canada And The War

London Paper Sees A Determination Of The Dominions To Play A Full Part

Canada's \$200,000,000 war loan shows the greatness of the Dominion's determination "to play a full part in upholding the liberties of the world," the London Times said editorially.

"There can be no question of the ability of Canada to carry an internal loan of this magnitude for the war brings with it a great demand for Canadian foodstuffs and Canadian industrial products," the Times said, citing the great increase in British purchases made in Canada as a result of war requirements.

"The inevitable strain on exchange between sterling and the Canadian dollar, it is expected, will be eased by the increase in Canadian purchases in Great Britain, and be offset by Canadian expenditure in Great Britain and France on the account of the expeditionary force."

"The agreement over financing the air training scheme shows that there are always ways of overcoming difficulties of this kind when both sides are anxious to make their co-operation effective. What is certain is that in Canada and the other Dominions, as in Great Britain and France, there is the most complete determination not to let the second front line fall first."

### Brought To Fine Art

Emergency Instructions In Edinburgh Hotels Take Care Of Bill

Air-raid precautions in Edinburgh have been brought to a fine art by the sunny Scots, says the New York Herald Tribune.

On each table in the lounge of one of the largest hotels there is a type-written sheet of emergency instructions the last paragraph of which reads:

"Dining-room customers who wish to go to the shelter should tell their waiter, who will present their bill immediately."

### Watches And Sun Time

Beginning about April 16, your watch will run slower than sun time until June 15; then faster until Sept. 1, slower again from then until Dec. 25, and faster from this date until April 16.

Francis the First of France introduced a city sanitation service when he started a rubbish cart brigade to clean the streets.

### Anxious To Help Again

Japanese Citizens Of British Columbia Contribute To War Effort

Japanese residents of British Columbia, some of them scared by service with Canadian forces in the first Great War, are digging down in their pockets for contributions to Canada's war effort.

Groups of loggers, fishermen and businessmen throughout the province have pooled donations to be sent to the Department of National Defence at Ottawa. Others are subscribing to the Canadian Red Cross Society.

Japanese are recalling they had their difficulties joining up in the last war, although Japan was then a British ally, and it was not until 1916 that the first group of Japanese was taken into an Alberta unit. A total of 196 went overseas. Of the 151 who returned, only 10 had not been wounded. Thirteen were awarded the Military Medal and one, Ootomatsu Yamamoto, received the bar to his.

Training of the "Japanese Volunteer Corps" began at Vancouver in January, 1916. For three months 202 recruits who had passed the medical tests were given intensive drill, only to be told Japanese volunteers were not needed as a full battalion had not been formed.

However, in June, 1916, Japanese were accepted by recruiting officers in Alberta. They were included in the 20th Battalion, the 13th Cavalry Battalion, and the 191st, 192nd and 175th battalions.

### Matter Of Speculation

Believe Hitler Does Not Expect To Win The War

The truth probably is that Hitler sees no way of winning the war, and does not expect to do so. He is engaged in just the kind of war which it is consistently argued Germany should never wage.

A man of a temperament like Hitler's may react in such circumstances in two opposite ways. Because he knows he is unwise, but cannot bring himself to admit it, he may persist still more obstinately in what he knows to be folly. Or, on the other hand, he is capable of reverting violently back to his original ideas and making a dramatic gesture of resignation in the hope of saving his country, and incidentally himself.

The course of the war so far encourages us to keep both these possibilities in mind.—London Sunday Times.

### The Price Of Ships

Has Increased Since War Started Making Carrying Charge Heavier

Shipping brokers are making money while the war booms, states W. L. Clark, in the Windsor Star. With the sinking of so many vessels, the prices of ships have gone skyward. One boat was sold in December, 1938, for \$45,000. A couple of weeks after the war was declared, the same craft sold for \$165,000.

A vessel sold for \$30,000 in 1932. She was getting old then, but after the war started the ship was sold for \$175,000.

Another boat was offered for sale at \$450,000 a few months before the war began. There were no takers at that price. But, after the war was under way the boat was snapped up for \$725,000.

Those are just a few examples of what has happened to shipping prices. There are cargoes to be had and the trade of taking goods to Great Britain is a good one, although it is dangerous enough.

And high prices for vessels mean that high prices for carrying must follow.

The tiny tungsten filament of an incandescent lamp gives off light at the highest temperature ordinarily encountered by man, or twice the temperature of molten steel.

# Finns Report That Russian Forces Are Facing Defeat

HELSINKI.—Finns conceded hard-pressed Russian forces on the vital front northeast of Lake Ladoga only a bare chance of escaping complete defeat despite a fresh show of resistance by the fragments of four divisions.

Though scattered fighting continued, military analysts expressed belief it was merely a question now of whether the embattled Red army forces would be able to withdraw in time to escape complete defeat in their thwarted drive at outflanking Finland's main Mannerheim line defenses.

A reliable source said an officer captured when a Soviet plane made a forced landing near Kiteola, on the north shore of Lake Ladoga, claimed he had been sent to rescue the command of the Russian units in the sector.

The Finnish communiqué said enemy attacks were weaker although "the enemy's losses in killed mounted in the course of the day to some hundreds. Our troops dispersed a column of about 200 horses and destroyed three tanks."

Continued unofficial reports told of a large body of Soviet troops practically encircled by Finns in the Kiteola region where Finnish infantrymen were aided extensively by Finnish coastal artillery to the south and east.

This body of trapped Soviet soldiers was believed to be almost entirely without food supplies although a Russian relief unit was reported attempting to fight its way in from the northeast.

Finns were said to be blocking the path of the Russian relief unit at a point 20 miles north of Kiteola where railway transportation has been cut.

Finns sources said Saturday that when the whole story is told of the Russian attempt to outflank the Mannerheim line it will show the worst disaster of the Russian invasion.

Hundreds of tanks, armored cars and motorized anti-aircraft weapons were reported to have fallen into the hands of the Finns as the Russians fell back. Some sources estimated the Soviet dead at 5,000.

These sources said at least three or four men were wounded to every one killed, which would bring the total Russian casualties to approximately 20,000.

Nine Russian bombing planes attempted to raid Viborg but were driven off by defense fighting craft. No bombs were dropped. The planes were reported to have come from bases in Estonia.

## Two Canadians On List

LONDON.—Two Canadians were included in the air ministry's 18th list of war casualties, Acting Pilot Officer J. A. Littlewood of Calgary and Flying Officer Richard Coe of Winfield, B.C. Both were killed on active service.

# Sharp Controversy Over The Question Of Roumanian Oil

BUCHAREST.—Germany and the Allies appeared heading for a showdown in their battle over Roumania's petroleum resources, with Nazis reported to have told the Roumanian government that it must supply more oil to the Reich.

The German representatives were said by a high authority to have declared an increased supply of Roumanian oil is "a matter of life and death," and that Germany would be compelled "to seek other methods" if Roumania does not ship of its own accord.

As this was disclosed, the influential Turkish newspaper Republic predicted the nations of the Danube and Balkan areas would go to war against Germany or Russia at the least sign of aggression by either in southeastern Europe.

Republic's editorial, which appeared as General Maxim Weygand, commander of French forces in the Near East, arrived at Ankara for conferences with Turkish leaders, added: "We know that not only will the western democracies (France and Britain) be with us, but also the entire world."

The German demand for additional Roumanian oil caught the Bucharest government between two fires.

## Dispute With Roumania

### New Complications Arise In A Serious Situation

LONDON.—An Allied dispute with Roumania over oil shipments to Germany added a new complication to a serious situation which now involved countries—belligerent and neutral—over most of the world.

According to reliable reports, not only had Roumania insisted that foreign oil companies operating in Roumania provide their share of oil for Germany, but it was complained in London that Roumania was withholding oil from the Allies—presumably at Germany's demand.

Britain was understood to have made firm representations to Roumania and to have added a clear intimation that permission for Roumania to obtain British products, including airplanes and other war materials, might depend on a solution of the oil question.

## Would Safeguard Italy

### Aid Promised By Hitler If Russia Threatens Her Interests

PARIS.—The newspaper Le Petit Parisien said that Fuehrer Hitler personally has assured Premier Mussolini that any attempt by the Soviet Union to violate the zones of interest of Italy and Hungary in southeastern Europe would meet with German resistance.

A memorandum by the Fuehrer to Il Duce Jan. 17 contained a formal guarantee to this effect, the papers said.

Italian interests would be safeguarded, the memorandum was reported to have said, even if the necessities of war led to "certain actions in the Balkans for purposes of security and prevention."

## Parachute Shell

### Invention Of Ottawa Man May Be Used In Britain's Defence System

OTTAWA.—A parachute shell, designed by G. D. Wright, of Ottawa, may become part of Great Britain's anti-aircraft defence system. The shell, which will drop small parachutes with wires attached for trapping attacking aircraft, has been forwarded by the national defence department to the British war office.

It is understood the new shell is more fully developed than a similar shell of American design now being tested in France.

## German Freighter Sunk

PARIS.—An official announcement said a French patrol ship had intercepted the German freighter Albert Janus, of 1,600 tons, which was scuttled by her crew. The communiqué also said that "one of our patrol boats successfully attacked an enemy submarine."

## A Grim Story

### Red Army Is Cut To Pieces By The Finnish Troops

HELSINKI.—A week-long attack found company after company of the Red army cut to pieces northeast of Lake Ladoga, the Finnish command announced, with Finnish positions "everywhere retained."

With Soviet dead declared by the Finns to have been "counted in the hundreds," the assault penetrated the eastern shores of the lake itself. Under a heavy artillery barrage, the Russians were sent in waves against the bastions of Fort Mantsi, island stronghold commanding a coastal corner of Finland.

Like the other attacks, the Finns said, these were repulsed, "the enemy leaving more than 100 dead before our positions."

A Finnish communiqué told the grim story of the destruction of Russian cavalry columns. It drew a terse picture of the carcasses of more than 400 horses sprawled in the snow.

It is in this area that the Russians have tried all week to cut behind the Mannerheim line. One large force of attackers was cut off several days ago near Kiteola, and, apparently, has obtained no relief.

Paul Sjöblom, Associated Press correspondent with the Finnish army on the Lapland front, said the Finns believed the Russians were moving back their heavy arms in preparation to resuming the general retreat began recently at Lake Joutska, and then digging in at the central Soviet base of Salla village. Salla is less than 40 miles from the Russian border.

## Chairman Of Radio Board

### Ottawa Announces Appointment Of Rene Morin Of Montreal

OTTAWA.—Rene Morin, of Montreal, has been appointed chairman of the board of governors of the Canadian Broadcasting Corporation and Brigadier-General Victor Odium, of Vancouver, vice-chairman, Hon. C. D. Howe, transport minister announced. Since the retirement of L. W. Brockington as chairman of the board on Oct. 18, Mr. Morin, the vice-chairman, had been acting as chairman.

Major-General L. R. LaFleche has been appointed military attaché to the Canadian legation at Paris and Air Commodore W. R. Kenny has been appointed air attaché to the Canadian legation at Washington. It was also announced. Owing to ill health, Major-General LaFleche has been on sick leave since September from his duties as deputy minister of national defence.

Lieut.-Col. Walter A. Harrison, of Saint John, N.B., has been appointed to the war supply board. At the same time the resignation of R. C. Vaughan from the board has been accepted.

## Likes Centralization

### Minnesota Banker Has Praise For System Used In Canada

WINNIPEG.—R. W. Putnam, president of the Farmers' National Bank at Alexandria, Minn., told 500 members of the Bankers' Lecture Club that early centralization of banking systems in Canada produced a stability unequalled in the United States until recently. Putnam said that the ratio of bank failures in both countries, was 1-10 in favor of Canadian institutions.

## Back In France

LONDON.—Reliable sources said the Duke of Windsor had returned to France to resume his duties with the British Expeditionary Force. He had been in England for several days.

## NETHERLANDS PREPARE FOR "INVASION"

The Netherlands bring all Dutch army stations up to wartime strength as France warned she would support any neutral attacked by the Germans. Dutch troops marching out of Amsterdam.

## BOLSTERS RED ARMY

Russia's highest political army commissar, General L. Z. Mekhlis, is said to be en route to the front to "supervise the soldiers' morale." General Mekhlis called a meeting of under-commissars from all Finnish fronts following the failure of the six-week Finnish campaign.

## More Men Called

### British Army To Be Reinforced By About 250,000

LONDON.—The British army will be reinforced by an estimated 250,000 men by virtue of an order issued calling for registration of all men who, on Dec. 31, 1939, were more than 20 and less than 24 years old.

The order, issued by the ministry of labor and national service, was authorized by the New Year's royal proclamation placing at the disposal of military authorities all British subjects between the ages of 19 and 28.

Developments in the war situation will dictate the speed at which the conscription program is carried out. Men up to 28 years old will be called up at intervals during the year. The process will be speeded up in the event of severe fighting in the West or Front. Barring this responsibility, it is believed the 24-year-old class will be ordered to register some time during April.

The order directed men between the ages of 20 and 23 to register Feb. 17 preparatory to being called to the colors.

The order applies to all men born between Jan. 1, 1916, and Dec. 31, 1919, inclusive. Many within these limits are already in the army, having been called under previous decrees covering youths of 20, 21 and 22. Each of these three age groups has produced more than 200,000 men.

## Director Of Recruiting

### R.C.A.F. To Have Services Of Honorary Air Marshal Bishop

OTTAWA.—Defence Minister Norman Rogers announced appointment of Honorary Air Marshal W. A. (Billy) Bishop as director of recruiting for the Royal Canadian Air Force in connection with the British Commonwealth air training plan.

The appointment, the minister said, was made on recommendation of Air Vice-Marshal G. M. Croil, chief of the R.C.A.S., and in command of the Commonwealth air training plan.

## Daylight Saving In Britain

LONDON.—Because blackouts have nearly doubled traffic fatalities, Britain curtailed night-time activities, Britain will go on summer time Feb. 25, two months earlier than usual. The country will have been on standard time little more than three months.

# A Third Division Of Active Service Force To Be Organized

## Official Inquiry

### Two Men Lose Lives In Plane Accident At Fort McMurray

EDMONTON.—Ken Saunders of Edmonton, federal government civil aviation inspector, will begin an official inquiry into the "freak" crash of a Canadian Airways Limited plane five miles south of McMurray, Alta., that resulted in deaths of two Fort McMurray, N.W.T., miners.

Inquest into the death of William Donahue, formerly of Kempenfelt, Ont., middle-aged foreman in the Eldorado gold mine on Great Bear lake, and H. Maki, native of Finland, reported en route to Finland to join the Finnish army, opened at McMurray, 225 air miles northeast of Edmonton.

Five other passengers, aboard the plane piloted by Jack Moor, formerly of Winnipeg, suffered only minor injury.

Capt. W. R. (Wop) May, Edmonton division superintendent for Canadian Airways Limited, in reporting the first aeroplane passenger deaths in history of commercial flying out of Edmonton, said the two men were killed by snow-covered stump which crashed through the bottom of the machine's fuselage.

## Exchange Information

### Britain And Italy Give Data On Naval And Aviation Matters

LONDON. Prime Minister Chamberlain told the House of Commons that Great Britain and Italy are exchanging military information as provided for in the Anglo-Italian agreement in 1938 and that the exchange of naval and aviation information would be completed before the end of the month.

He added that prior to the outbreak of war Italy said she was unable to accept British proposals regarding frontiers between Italian East Africa and Sudan, Kenya and British Somaliland. These and related questions are under diplomatic consideration, he said.

# Ottawa Government Has Decided To Call A General Election

OTTAWA.—In a lightning move, shattering all precedents, Prime Minister King had parliament dissolved within four hours after its sixth session had been formally opened.

Decision of the government to "country" was announced in the speech from the Throne read by Lord Tweedsmuir, governor-general of Canada, to members of both houses assembled in the senate chamber.

At a hastily-called cabinet meeting after a storm of protest had been heard from Hon. R. J. Manion, Conservative leader, and J. S. Woodworth, Co-operative Commonwealth leader, the decision for immediate dissolution was reached.

Then the prime minister announced that he and his colleagues would meet at once to consider procedure. It took them only 10 minutes to make up their minds. The prime minister personally carried the dissolution order to Government house where Lord Tweedsmuir signed it.

Apparently the secret was so well kept that no one outside of the cabinet knew what was coming. Contrary to usual custom no advance copies of the throne speech were given to the press or to opposition leaders.

Six new members were introduced to the house before any other business was taken up but their tenure was the shortest of any members previously presented to the House of Commons.

Prime Minister King then made a statement to the house in which he made it plain his basis for his answer to criticism of the government's war effort, particularly that from the Ontario's government and its Conservative opposition which united a week ago in adopting a vote of censure of the federal administration.

Conservative Leader Manion said the government's action was "unprecedented," and was an effort to obtain a "snap decision" from the people.

He said the prime minister was adopting "Hitler" methods.

Ottawa.—Organization of a Third Division of the Canadian Active Service Force is expected to follow a dispatch of the Second Division overseas.

Prime Minister King told the House of Commons that the Second Division would be sent abroad "as soon as may be possible" but indicated this would not happen until after the general election which likely will be March 28.

At the same time it is the intention to train the Second Division in Canada to a greater extent than was the case with the First Division, now in England. Additional equipment for training is being obtained and it is proposed to concentrate the division in sections for training purposes.

The British admiralty had appealed for 43 university-trained Canadian physicists and electrical engineers for special attack or shore duty. The admiralty, authorities of the University of Toronto have announced.

All applicants must be British subjects, university graduates and have special knowledge of short-wave radio, mathematics, physics or radio engineering, but men with radio engineering qualifications only will not be acceptable, it was announced.

Some of the men will be employed in civilian capacities in experimental work and some will be given temporary commissions and will be required to serve either abroad or ashore, the announcement said. The Canadian government has agreed to pay transportation of the accepted men to London, Eng.

## British Born

Vancouver.—John Barbirolli, British-born conductor of the New York Philharmonic symphony orchestra, will conduct the Vancouver Symphony Society in a concert here on May 28.

## Attack Sub Bases

PARIS.—Maritime sources reported that French and British navy units had made separate attacks on German sub bases with results not yet known.

"The prime minister does not look like a dictator nor talk like a dictator but he is acting like a dictator today," declared Mr. Woodworth.

In the senate, the Conservative leader, Senator Arthur Meighen, said it is an insult to parliament to call us here without having any proposed legislation."

Reasons why a general election should be called at once, dwelling particularly upon criticism directed against the administration by the Ontario legislature.

"How can I be expected to do what is expected of me by this country in a time of war as leader of the government of Canada if all my time and thought is to be surrounded by the animosities of political opponents who are seeking to undermine every effort that is being put forward in the leadership of the administration?" the prime minister exclaimed.

The Ontario legislature action was the start of a "deliberate campaign," the prime minister said.

"What is the cry already? The leader of the Conservative party in Ontario is telling the people that the election must start at once and he gives them the slogan 'King must go.' I am quite prepared to accept the slogan if he will add the words 'to the country.'"

"It is now evident that a political campaign has begun."

"That being so, I ask honorable members whether it is wise to carry on a political campaign in the country and a political campaign in this parliament—two campaigns at once—while a war is going on at the front?"

An election had to be held soon in any event and the prime minister declared there were many reasons why it should be at once.

A great offensive probably would be opened on the Western Front in the early spring. If it were possible to have a government with a fresh and unquestioned mandate before that time "it is entirely in the public interest that that should be done."

## NOTES AND COMMENTS

PROVINCIAL political circles at the time this is written are in a maze of conflicting thoughts as to a date for the provincial election normally due this year, strategic plans for which have been entirely upset. Premier Aberhart stated the decision of Prime Minister King to appeal to the country is "strategic rather than democratic," and his utterances indicate that he (Aberhart) is more concerned over the fate of his Social Credit party than the problems of the Federal government to successfully carry on Canada's war effort.

THE WRITER is of the opinion that political antagonisms should be cast aside and whole-hearted support given to the government. Mr. King has been sniped at from various quarters. In Ontario he has been insulted on the public platform by one of his erstwhile supporters, Premier Mitchell Hepburn, mainly for personal reasons. The interests of the country take second place to the Ontario's premier's desire to discredit his former chief. And in Alberta, Premier Aberhart's views on the Federal government have been, to say the least, very different, while his party spokesmen have shown a milk and water attitude in their comments, absolutely without "guts" otherwise than to condemn and talk of conscription. Though this paper has favored the Conservative party in past years, the action of Premier King in appealing to the country is heartily approved. If a government is to be entrusted with pursuing our war effort, it is only right that it should know it has the confidence of the people. The sooner we get it over and go on with the war, the better for all concerned.

MONDAY next is nomination day for the offices of mayor, councillors and school trustees. At present all is calm, even if it is not bright. Doubt exists as to who may run. The annual meeting of ratepayers for the school district has not yet been held, so that we have had no opportunity of enjoying that privilege of all ratepayers, to praise or criticize the administration of school affairs. The required local improvements on streets and sidewalks if carried to completion, to give everyone a sidewalk past his home, would cost more than the total revenue of the town, though some small sections will be attended to. Some places are yet in the primitive condition of a virgin townsite as regards sidewalks, and one or two voices at last Friday's meeting of ratepayers asked when do we get some sidewalks? Of course, they are deserving.

AGAIN, voices clamor for the surfacing of the sports ground, to provide local facilities for summer games. So, whoever has the spending of the ratepayers' money during 1940 will find no lack of places or advice as to when, where and how it should be spent. Taxes are about as high as the average worker can afford to pay, while businessmen particularly find that taxes constitute quite a percentage of their normal profits. The total revenue for town purposes does not permit of any extravagances, so economy from necessity and careful supervision of expenditures has to be

maintained to make both ends meet. There doesn't appear to be anything at present to get "het up" over, with the result that there is indifference on the part of those who never trouble to vote unless it is on a contentious subject. Yet, if these same people were deterred from voting, what a holler would arise. It is every citizen's duty to vote.

THE war's progress shows intensified effort on Germany's part to try and strangle Britain's imports of food supplies and war materials by a ruthless submarine war. Were it not for the British Navy success would have attended this effort. Unattested praise must be accorded those who man the ships or risk their lives daily. Many a heart echoes the thought—God Bless the Navy. Equally perilous is the work of those who man the trawlers and minesweepers. Thankful indeed should Canadians be that they enjoy peace-time comforts while people over there endure trials and sacrifice of which we have not even had a taste.

MANY a Canadian mother, sweetheart or wife must have thrilled in hearing voices direct from their soldier lads on the broadcast from the Canadian Active Service Force in England. This is a fine way of keeping up the spirit of those who have gone over and those whom they left behind.

EDITOR Horton of the Vegreville Observer thinks it would be fine if a settlement is established in Alberta, as suggested at a recent Social Credit convention, of enthusiasts of that party, who would demonstrate that they could live unto themselves and show the world what could be done under the policies they advocate. They wouldn't even need \$25 a month dividend, which was the bait for which thousands voted in 1935.

## DOG, DOGS, DOGS!

A reader writes asking us to give a "blast" about the dog nuisance in town. At this time of the year it seems the town is cluttered with nondescript canines which appear to be owned by nobody! They neither wear a tag, no owners can be found, and all in all they are a confounded nuisance. One morning twenty were counted in a park chasing around town. Day and night they are a nuisance. The official dog catcher can soon apply a remedy. Either collect the taxes or shoot the strays for which nobody pays a license. They could be cleaned up in short order with the expenditure of a little energy and a few well-directed pistol shots.

## "THE RECORDS TELL THE STORY"

The Public Accounts of the provincial government show the following:  
Agricultural Department:  
Salaries and Wages—  
in 1935 ..... \$242,492.75  
in 1939 ..... 347,471.71  
an increase of ..... 42%  
Travelling Expenses—  
in 1935 ..... \$45,318.25  
in 1939 ..... 72,964.48  
an increase of ..... 61%  
This is but one of several departments which show similar increases; in fact the travelling expenses in the Department of Trade and Industry show an increase of 86%, from \$142,978 in 1935, to \$212,497.78 in 1939.  
The present government surely knows how to find plenty of ways to increase taxation.

The Journal and Bulletin ads are valuable as shopping guides.

## OF INTEREST TO THE LADIES

### Eastern Star Elects Officers

Installation of officers for the year 1940 was held at a recent meeting of Minerva Chapter of the Eastern Star. Past Worthy Matrons Catherine Garner and Elizabeth McGregor conducted.

Officers elected were: Worthy Matron, Sister Walker; Worthy Patron, Bro. Joe Emmerson; Associate Matron, Sister Morris; Associate Patron, Bro. A. E. Ferguson; Secretary, Sister Garner; Treasurer, Sister Dewar; Conductress, not appointed; Associate Conductress, Sister Johnston; Chaplain, Sister Rees; Marshall, Sister Vincent; Organist, Sister Bannan; Adah, Sister Rippon; Ruth, Sister McGregor; Ester, Sister Jackson; Martha, Sister Moore; Electa, Sister Davidson; Warder, Sister Blower; Sentinel, Sister Morgan.

Following installation Sister Elizabeth McGregor was presented with her Worthy Matron's jewel by the newly installed Worthy Matron Sister Isabella Walker. Both Sister Garner and Sister McGregor were presented with beautiful bouquets. A luncheon followed.

Mrs. J. J. McIntyre left on Saturday for her home in Nova Scotia, where her mother is seriously ill.

## WORLD HAPPENINGS BRIEFLY TOLD

The Netherlands Red Cross decided to send an ambulance unit to Finland with at least four doctors and a group of nurses.

United States postal revenues totalled \$758,867,444 in 1939, a new high record. The total was \$25,935,805 over 1938.

Increase in old age benefit payments were announced in the House of Commons by Sir John Simon, chancellor of the exchequer.

Administration of Italian state railways is speeding electrification with water-generated power to prevent possible wartime paralysis of transportation.

Queen Mary visited headquarters of the trained nurses' department of the Red Cross and St. John's war relief organization in Belgrave square. The queen mother was presented to all members of the staff.

Government authorities, intensifying a drive to tighten anti-spy and anti-sabotage precautions, prepared to re-examine 54,000 "enemy aliens" living in unconditional liberty in Britain.

The King has approved a six months' extension of the term of office of Viscount Galway, governor-general of New Zealand, the dominions office announced. His present term will expire April 12.

Leonard W. Brockington of Winnipeg, former chairman of the Canadian Broadcasting Corporation board of governors, was presented with an inlaid silver tray by the corporation governors and executive.

More than 100 men of the Calgary garrison are taking French lessons. Capt. William McLaws, auxiliary services officer, said. Capt. McLaws said arrangements will also be made for a German class for the soldiers of the Canadian Active Service Force.

### Just Like Him

Story About Abraham Lincoln Shows Why He Was Loved

A tall man wearing a rusty suit and a thoughtful, kindly expression was walking along a street in Washington when he came upon a little girl weeping by a high iron gate. Gently he inquired, "What's the matter, little girl?"

The child explained that she was going on a journey, and that no one had come for her trunk, and she feared she would miss her train.

"How large is the trunk?" he asked. When he saw the trunk, he lifted it up on his shoulder, and strode down the street toward the railroad station, the little girl trotting along behind him.

When the friends of the accommodating gentleman learned of this incident, they exclaimed, "That's just like him."

The self-appointed porter was a Congressman from Illinois. His name was Abraham Lincoln.—Christian Science Monitor.

### Mystery Cleared Up

Missing Consignment For Canadian Soldiers Was Finally Found

Mystery of the missing consignment of New Testaments given by the British and Foreign Bible Society of Canada to the first division of the Canadian Active Service Force before its departure for England was solved.

The testaments—about 7,000 of them—were found by members of the Seaford Highlanders when they opened crates believed to contain army equipment. The consignment had become mixed up en route with units of baggage stored away for later attention.

The task of distributing the testaments through the divisional chaplains began promptly. Every man with the division received a copy to carry in his knapsack. Each bears the name of the office or man, his unit, and the name of the chaplain presenting it.

### Wheat For Britain

Proposal To Purchase Million Bushels Of Wheat For Evacuated Children

A proposal to raise 1,000,000 bushels of wheat for evacuated children in England was made by Dr. W. H. Butt, member of the Toronto board of education, during an address under the auspices of the Health League of Canada.

"I would suggest that every service club and every individual Canadian who could afford it buy one or more bushels for the aid of English children who have been taken from their homes," Dr. Butt said, adding that he believed Canadian banks might volunteer to act as clearing houses for donations to such a fund.

## GENERAL GORT HONOURED

A general is kissed on the western front as General Viscount Gort, commander-in-chief of the British forces on the western front, received the Grand Star of the Legion of Honour from General Maurice Gamelin, commander of the combined Allied forces.

### Exercise As Health Factor

Can Be Harmful If Overdone, Opinion Of Minnesota Doctor

Too much emphasis is placed on exercise as a health factor, Dr. William O'Brien, director of post-graduate medical education at the University of Minnesota, believes.

Exercise is beneficial in small doses, but there is danger in overdoing it, he said. The best thing to do is sit down and rest after the mood passes," he said.

After the 40th birthday more rest and a firmer check on bad habits is necessary, he declared, because the body cannot stand so much punishment. However, man's mental faculties continued to grow in power and this was achieved by keeping alert, studying and endeavoring to learn something new.

## HOME SERVICE

INTRIGUE YOUR FRIENDS BY TELLING FORTUNES

How the men sit up and take notice when you read their horoscopes! Bob tells you he was born February 24. That means in the Zodiac his sign is Pisces, the two fishes. So you cleverly tell Bob that according to his sign he's at once a dreamer and a man of action, a home-body and a great traveller. Learning and memory work are his strong points, his birthstone is sapphire or amethyst, his lucky number—three.

Or maybe you have your eye on a man whose birthday falls between April 20 and May. Taurus, the bull, is his sign. He'll be hattered when you tell him he has a mind of his own—is "a hard person to boss."

Grand fun to tell fortunes with cards too. The key card is the "name card"—representing the person whose fortune you're reading—a king for a man, a queen for a woman. Spades stand for dark or gray-haired people, clubs for brown hair and eyes, hearts for blue or gray eyes and brown hair—and diamonds for blonds or white hair.

Fun and easy to learn how to read horoscopes, tell card fortunes. Our 32-page booklet gives the meaning of each card; how to read tea leaves, fortunes in an open fire. Party fortune games.

Send 15c in coins for your copy of "Fun With Fortune Telling." Write to: Home Service Dept., Winnipeg Newspaper Unit, 175 McDermott Ave. E., Winnipeg, Man.

The following booklets are also available at 15c:

114—"Good Letter-Writing Made Easy."

118—"Good Table Manners."

140—"Tap Dancing Simplified."

The prong-horned antelope is the only animal known to shed its horns; it sheds only the outer sheath.

It takes from 50 to 100 years to produce a tree large enough for lumber.

## Entertaining Soldiers

Canadian Legion Helping Forces To Develop A Sense Of Humor (By F. H. Wooding)

If the British fulfill their promise to hang their washing on the Siegfried Line, it's an even bet that among the "woolies" to dangle in the Nazi breeze will be many bearing the trade-mark, "Made in Canada." This whimsical determination is shared by every member of the C.A.S.F. and it is all because they are developing a sense of humor that bids fair to outdo even that of their British comrades.

Anyway, when young Canadians go into the mud-of-European battlefields or by through Continental skies they will take with them light hearts and gray ones. And the grim task that is theirs will be made easier because they will know how to smile.

So strike up the band, Professor Goering, because boisterous fun, innuendo and plenty of double entendre are being included in the regimental orders of the Canadian armed forces!

The happiest soldiers make the best soldiers, say veterans of the last war and they ought to know. Therefore, by means of their wartime organization, The Canadian Legion War Services, they are already paying particular attention to this phase of army life.

This does not mean, of course, that the Legion intends to confine its activities to the field of entertainment. There are the more serious matters of providing facilities for education, conducting recreation tours, personal services and travel bureaux both here and overseas. At the moment, however, let's look on the lighter side of things.

This will take the form of musical programs, always dear to the hearts of soldiers, dramatic presentations and, of course, moving pictures of all types. In fact the Legion intends to utilize motion picture units that can be taken right up to the front. And if the soldiers are large enough, perhaps even the enemy will be able to look on.

Canada's new fighting forces, although they still sing right lustily the old wartime songs such as "Tipperary," "Pack Up Your Troubles," and "Mademoiselle," seem to prefer "South of the Border," "Oh, Johnny," and other modern products of Tin Pan Alley. The old marching hits of 25 years ago apparently have been relegated to a back seat in favor of the more sentimental numbers of today.

The boys are, however, giving a great hand to the Music Hall programs that were such favorites among Canadians on leave in London during the last war. They roundly applaud the poetic narratives of "Albert and the Lion," "Magna Charta," "Gunner Joe," and "The Ghost of Anne Boleyn," rendered in the best Lancashire dialect.

All of this may sound rather frivolous to civilian ears but it is nevertheless going to play a big part in helping the boys on their way to the Siegfried Line and the famous Berchtesgaden Garden party.

### A Distinguished Patron

Salvation Army officials announced Lord Tweedsmuir had consented to act as honorary president and patron of the Army's \$1,000,000 campaign for home and war service. Rt. Hon. Arthur Meighen is chairman of the national advisory board which includes the lieutenant-governor and premier of each province.

British people call the earth-worm a "dew-worm."

The lady-fern is also known as the Queen of Ferns.

## THE OTHER END OF THE AXIS

Hitler: "Things go from bad to worse."

## GAY YOUNG JACKET AND SKIRT

By Anne Adams

4322

This spirited young two-piece will make either a simple date dress or an all-around sporter. It's Anne Adams' Pattern 4322—and one of the easiest styles you've ever put needle to. The skirt has eight gores and a merry flare. The trim blouse, smartly divided by your waistline. Why not make a dress-up version in dark crepe and scallop the edge of its skirt? Then add contrasting collar and cuffs, perhaps with ruffle trim. For the more everyday style, you might have a straight-edge skirt, close at hand for short-cut guidance in cutting and attaching.

Pattern 4322 is available in misses sizes 10, 12, 14, 16, 18 and 20; bust sizes 28, 30, 32, 34, 36 and 38. Size 16 takes 4 1/2 yards 35 inch fabric, 5 1/2 yard contrast.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly: Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Unit, 175 McDermott Ave. E., Winnipeg.

## For History Books

Great Spec Fight To Be Called Battle Of Lobos Island

The fight off Uruguay in which the Graf Spee was driven to port is to be known, it seems, as the Battle of Lobos Island. There are at least half a dozen Lobos islands in various oceans, named (in Spanish) after the seals or sea lions which inhabit, or did inhabit, them. It is particularly fitting that the battle of 1939 should be named after Lobos, the island of the Sea Lions at the northern side of the entrance to the Rio de la Plata, for the Sea Lions won it.—Toronto Star.

Sphagnum moss picked on Scottish and Welsh moors is being used in bandage dressings in Britain, as in the last war.

## SUNDAY SCHOOL LESSON

FEBRUARY 4

HOLDING LIFE SACRED

Golden text: Ye were bought with a price; glorify God therefore in your body. I Corinthians 6:20.  
Lesson: Genesis 1:27-31; I. Corinthians 6:19, 20; II. Corinthians 6:16, 17.  
Devotional reading: Matthew 9:35-38.

### Explanations and Comments

Made in the Image of God, Genesis 1:27-31. And God made man in his own image, in the image of God created he him. God has no physical image, and man's likeness to him lies in his intellectual, moral and religious capacities and powers in his ability to think, feel and will, which makes possible the revelation of God to man and the communion of man with God.

The Human Body the Shrine of the Divine Spirit, I Corinthians 6:19, 20. Writing to the Corinthians, Paul questions: "Know ye not that your body is a temple of the Holy Spirit which is in you, which ye have from God?" "The most wonderful thing I read in the New Testament," said a Chinese convert, is that it is possible for us men to become temples of the Holy Spirit.

Are not your own," continued Paul, "for ye were bought with a price"—the passion and sacrifice of your Redeemer. "Glorify God therefore in your body; honor him by your care of that temple in which his Holy Spirit dwells, in which he has breathed something of his own great life."

A Warning Against Defilement and an Appeal for Holiness, 2 Corinthians 6:16-7:1. There is no similarity between the temple of God at Jerusalem and a heathen temple with its idols, Paul states, and then turns to the thought which is implied in his sermon to the Athenians, Acts 17:24, that his followers were a temple of the living God. He quotes from the Old Testament, "a mosaic of phrases," which the "One Volume Commentary" finds made up from Ex. 29:1, 26:12; Jer. 31:32; Isa. 52:11; Ezek. 20:41; 2 Sam. 14; Jer. 31:9; Isa. 43:6.

Having therefore these promises, let us cleanse ourselves from all defilement of flesh and spirit, perfecting holiness in the fear of God. "The Christian is to put away not only every wrong action, but all thoughts and desires which may sully the whiteness of the soul. Then, positively, he must seek daily and continually for more perfect holiness, must move toward the goal of absolute moral perfection, inspired by the 'fear of God' which is born of a consciousness of his holy presence and of his unfailing love" (Charles R. Erdman).

## To Combat Zero Weather

What A Pilot Wears When Training In Winter Time

When the mercury plummets and you shiver waiting for a street car, find a little consolation by thinking of young Royal Canadian Air Force pilots training in open cockpit planes in the very skies.

But don't pity them too much for here's what a pilot wears to combat the 25 and 30 below zero weather found a few thousand feet in the air:

One or two suits of underwear, a couple of sweaters, several pairs of socks, a huge girth scarf that looks like a pony blanket, a fur flying suit topped with a felt-lined canvas flying suit.

The whole grotesque outfit zippers up and the pilot waddles around looking like a man from Mars, his parachute bobbing behind him.

His feet are encased in fleecelined snowboots and a flying helmet with heavy ear lugs covers his head. Sometimes a chamdo mask is worn over the face.

The air force has yet to solve the problem of cold hands. Only one pair of gloves is worn most of the time to keep hands sensitive to the control stick. That's where old man winter goes to town.

## A Generous Gift

Canadian Woman Sends \$1,000 For Families Of Sub Victims

An anonymous gift of \$1,000 has been sent by a Canadian woman for the families of victims of the sinking by German submarines of the British aircraft carrier Courageous and the battleship Royal Oak, the royal naval benevolent trust announced.

A man who forwarded the money on her behalf wrote: "Her deep sympathy for the men of the Royal Navy and their wives and families, and her appreciation of the work the Royal Navy is doing in these critical times, expressed in her gift, are sympathetic of the feelings of the people of Canada in general."

"Do you suffer from neuritis?" the doctor asked a friend. "No." "I'm sorry." "Sorry? Why?" "Because I'd like to be able to do something for you. I've discovered a splendid cure for neuritis."

"You can't make good drivers by fining them or putting them in jail, says a well-known automobile racer. Quite true—but in this way you can often keep them off the road."

**Health LEAGUE OF CANADA**  
presents  
**TOPICS OF VITAL INTEREST**  
by DR. J. W. S. McCULLOUGH

## THE INSURANCE PROBLEM

It appears that the first lesson to be learned from the development of health insurance in Europe is that a long period of development must be expected.

This is one of the points brought out by Dr. J. A. Hannah, Director of Associated Medical Services Inc., a Toronto project that is meeting with much success. Dr. Hannah has naturally made an extensive study of the problem of health insurance and he contributes a thought-provoking article to the winter number of "Health".

"The next lesson to learn from a study of these plans in Europe," he says, "is to be found in the fact that every plan, with the exception of that developed in Denmark, started because of the demand by public opinion and was considered and brought about by a group of laymen as a matter of political expediency. Under such circumstances, the consideration must always be the question of how much we can afford to pay for such services."

"While this is an exceedingly important question, it is not by any means the primary question. In the services themselves, the primary consideration must always be quality. Having arrived at this conclusion, we can give consideration to the problem of what such service will actually cost, because we should not be deceived in this or any other project. A certain type of service or commodity will cost so much money and no endeavor on the part of anyone, whether Government or other, can provide such service for less money than it actually costs. Further, we should not be deceived by thinking that it costs anything less because we pay for it through our taxes. We have found, through bitter experience, that paying for things through taxation very frequently makes them very much more expensive."

Dr. Hannah holds, however, that the old system is outmoded, adding: "If we bear in mind that 85% of the population of Ontario have incomes of less than \$1,449.00 per year and 94% have less than \$2,649.00 we begin to appreciate some of the factors which make it necessary to give consideration to some form of budgeting against the future cost of medical care."

"We also begin to understand why it is that the doctor's fee is left as the last bill to be paid. It is our firm conviction that if these people are permitted to pay for their medical services, as they go along, on a budget plan, the majority of them are anxious to carry their own share of the responsibility."

Editorial Note: Readers desiring the complete set of Dr. McCullough's career articles at once may secure same by writing to The Health League of Canada, 105 Bond St., Toronto, Ont.

## Makes Home In Desert

Woman Could Not Find Work So Took Up Prospecting

For 10 years Grace R. Finley has been prospecting and mining all over the Mojave Desert.

For the last three years she has been living alone near the ghost town of Copper City, 37 miles northwest of Barstow, California, boring powder holes with a drill and a three-pound sledge, shovelling ore from down to sunset.

Finley is an old and husky, she bears little resemblance to the squint-eyed prospector of fact and fiction. But she's a slater to those desert rats in her eternal optimism.

Shovelling at the rate of about a ton a week, she has stacked 120 sacks of ore toward an order for 30 tons at \$10.17 a ton. The ore assays 25.47 per cent. copper and 16 ounces of silver.

"Why do I mine all by myself on the desert? Well, do you know how hard it is for a girl to get a job these days? I couldn't find one so I had to make one. And then I guess I have a natural feeling for mining. 'The desert doesn't bother me,' she avers. "I like it. What is there to bother you? Why I can see company coming for 14 miles," she added with a laugh.

## BURNS CONCERT

(Continued from Page 1)  
ed the latest loan from the people  
at an interest rate of 8 1/2%, while  
in October of 1939 the same gov-  
ernment had borrowed from the  
Bank of Canada two hundred mil-  
lion dollars at 2%. On the first  
since 200,000,000 dollars of new  
money had been put into circula-  
tion. In the last loan not one dol-  
lar of new money had been put into  
circulation. The money had simply  
changed hands from the people to  
the government and there was no  
danger of inflation. Furthermore,  
the resources, the real wealth of  
the country, still remained here to  
produce greater wealth.

The musical program was very  
good, artists coming from Leth-  
bridge, Hillcrest and Coleman.  
They were: Mrs. Hogg, of Leth-  
bridge, who sang "Star O' Robbie  
Burns," "Far Across the Sea" and  
"The Auld Folk;" Mrs. Robert  
Holmes, recitations, "Burns, the  
Pride o' Every Scot" and "The  
Head of the Hoose;" George Burles  
of Blaimore, "End of the Road" and  
"Annie Laurie;" Mamie Mc-  
Lennan, "Misty Island of the High-  
lands" and "The Crooked Hat-  
penny;" Andrew Gardiner, of Hill-  
crest, "Stirling Brig" and "Drink;"  
Isa Ramsay, "Mary o' Argyle;"  
"Ye Banks and Braes;" Mary Kerr,  
Passburg, recitations, "To a  
Mouse" and "Auld Granny's Les-  
ther Pouch;" Margaret McCulloch,  
"Banks of Lomond" and "Afton  
Water." John Anderson, senior,  
gave several tunes on his melodian.  
Tribute was paid by Chairman  
Gillipie to the memory of the late  
John Kerr, of Passburg, who was  
recognized as one of the foremost  
authorities on the life of Burns in  
the Pass.

Dancing was enjoyed until the  
wee sma' hours of the morning.
